Fallingforyou

The 1975

What time you coming down?
We started losing light,
I'll never make it right
if you don't wonder off,
I'm so excited for the night,
all we needs my bike
and you're in August house
you said some very mind well
closer to your height and
then we'll knock around, endlessy
you're all I needDon't you see me and
I think I'm falling,
I'm falling for you,
don't you need me,
I I think I'm falling,
I'm falling for you,
And on this night
and in this life,
I think I'm falling,
I'm falling for you
maybe you change your mind
I think I'm falling,
I think I'm fallingHave you caught any coke yet?
you still don't know it's right,
I read between the lines
and touch your leg again, again
I'll take you one day at a time,
say you will be mine,
oh but what u know, but what u know,
when the smoke is in your eyes,
you look so alive,
do u fancy sitting down?
with me? maybe?
you're all I need
I call into your hands,
mile play system it never ends,
the feeling of your eyes
I don't wanna be your friend,
I wanna kiss your neckDon't you see me, I

I think I'm falling,
I'm falling for you
don't you need me, I
I think I'm falling,
I'm falling for you
And on this night
and in this life
I think I'm falling,
I'm falling for you
maybe you change your mind
