Save Me

Everlife

Lookin' a lot like i just got trampled on
Feelin' a lot like i just can't get up off the ground
No, i can't get up
I was worryin' about how this thing would turn out
Wondering how i could make everything go down my way
It's gotta be that way
Funny how you try to hold so tight
The more it slips away
The closer that you look its all a blur
I need a new today
Won't you
[chorus]Save me
From the selfishness that keeps me far from you
Hold me
'til i know i hear You say
You're not looking for perfection
Just a willingness is fine
You will always have my attention
You just wanna hear me say
Save me
How did i get here stuck in the middle

I wanna do right
But its easier to think about only me
It could only be
Can i wake up from this life that i'm livin'
Tell me again that it's all forgiven
What You see in me
Funny how you try to hold so tight
The more it slips away
The closer that you look
It's all a blur
I need a new today
Won't you
[Repeat chorus]Funny how you try to hold so tight
The more it slips away
The closer that you look
Its all a blur
I think i need a new today

Won't you
[Repeat Chorus]
