

Surround Sound

Empire of the Sun

Let's flow together like water
Til I can tell you probably
Our great king wave is rolling
Oh, I seeLet's flow much harder than the sun
Til all flames incendiary
Like saving rays I'm sleepingThe light skips the sun now
I only sound surround
The light skips the sun now
I only sound surroundLet's push through four dimensions
Til I'll resign to change
My duty with no thinking
It's not a wayLet's seek and reach for greatness
Here come all true and journey
Let's resonate togetherThe light skips the sun now
I only sound surround
The light skips the sun now
I only sound surroundThe light skips the sun now
I only sound surround
The light skips the sun now
I only sound surroundThe light skips the sun now
I only sound surround
The light skips the sun now
I only sound surround
