

# Don't Tear Me Up (2015 Remastered Version)

**Mick Jagger**

Life is rich, but it's way too short  
You make a lot of money, but you just want more  
I don't need the pain right here in my heart  
But I hate every minute when we're so far apart  
It was love in a minute, it was love in a flash  
It brings me no pleasure, just a stab in the back  
It brings me no comfort, it brings me no peace  
A weight on my shoulder, it's a fatal disease  
So don't tear me up  
I don't ever wanna see your picture again  
And don't poison my blood  
I don't ever wanna see your face here no more  
Gonna finish it quick, gonna finish it clean  
Don't wanna be bitter. I don't wanna be mean  
I feel like we're driving down a dead-end street  
I've come so far I wanna crash the car  
I wanna land right on my feet  
I said don't tear me up  
I don't ever wanna see your picture again  
I said don't tear me up  
I don't ever wanna see your face here no more  
But I dream of you constantly, you'll be my angel of light  
And in the dark rooms of sleeplessness  
You'll be my lover each night  
Life is a bitch, it's way too short  
Unlike a politician it just can't be bought  
Think about the tenderness, and think about the craziness  
And if you ever wanna hate me come and  
Stick a knife right in my chest  
I said don't tear me up  
I don't ever wanna see your picture again  
I said don't tear me up  
I don't ever wanna see your face here no more  
I said don't tear me up  
I said don't tear me up  
I said don't poison my blood  
I don't ever wanna see your picture again
