Till Death Do Us Party

Wednesday 13

It's Friday, and everything is great And my stupid friends got a dumb idea Gonna go down to the lake And we don't care about the stories we've heard And we're too damn dumb to realize That we're never going to return And soon enough we're gonna meet Voorhees We might as well write it on our heads Come and kill us please Hey you don't be late Till death do us party right here on Crystal Lake We got everything that we need Let's go skinny dipping Drink some beer and don't forget the weed And have your brain at the door 'Cause where we're going

You won't even need it anymore

And soon enough we're gonna meet Voorhees

We might as well write it on our heads

Come and kill us please

Hey you don't be late

Till death do us party right here on Crystal Lake

We couldn't have planned it better

If we tried

We got nothing to lose but our lives

T & A and an early grave

Well sigh me up

Now Jason's here in the nick of time

To fuck us all up

Hey you don't be late

Till death do us party right here on Crystal Lake
