Follow Me

TryHardNinja

He's been waiting, abandoned and patient, so long (long)
A savage masked ghost story from the past he roams (roams)

He said follow me
Follow follow follow

Over 30 years ago, when he took them down below, and tonight he walks again so step inside enjoy the show

Follow me
Then you'll see
Follow follow follow follow, but the truth is hard to swallow
Follow me
Then you'll see
Follow follow follow follow
Follow me, see a nightmare in action

Deeds so rotten came back to haunt him they know
Forever changed, he wears his spring locked grave alone (alone)

He said follow me
Follow follow follow

All the horrors have been sealed, boarded up they were concealed
But its time for the real monster's face to finally be revealed
