

# Fade

[Sophie Zelmani](#)

Fade, you star  
Fade from my heaven  
Fade for the promise  
Of forgetting If I stared and you'd be  
Shining through  
I would probably  
Still see you Farewell, my guest  
You were the only one  
Who saw the door  
Might be open If I only  
Could have told you then  
That the lock  
Just was broken
