

Medicated Nation

Nevermore

Slithering slow and serpentine coiled around your spine
My willing victim so sublime, one taste and you are mine
Did you remember to feed me while I was broken and
bleeding? Preaching words obsidian on the wings of shattered man
The sightless wait oblivious to the scourge that stains their hands
All you feel and all you do, the medication controls you
Did you remember to feed me while I was broken and
bleeding? Now slap your vein
I'm the power of pain and pleasure symbiotic, I am, I am
In a medicated nation of blind neurotics, I am, I am
Psychotic pain baptised in pure narcotics, I am, I am
Did you remember to feed me while I was broken and
bleeding? Solo: Loomis Trapped in dark seductive miracles, deified addictive rituals
All you feel and all you do, the medication controls you
Did you remember to feed me while I was broken and
bleeding? Now slap your vein
I'm the power of pain and pleasure symbiotic, I am, I am
In a medicated nation of blind neurotics, I am, I am
Psychotic pain baptised in pure narcotics, I am, I am
All you feel and all you do, the medication controls you
