Up and Over

Ultra

Hasn't anybody told you your time is up and over?
You've broken me down I could never feel the same for you
You could throw your body up into the air
You could be upset but I will be there without you
Oh yeah
I hold you near me but no words are spoken
This is a kinda love I'm dreaming of
If only I could stay
Why don't you tell me how my heart was broken?
Just take up a little time and tell me why
You threw it all away
I set your spirit free
You made a fool of me
Why don't you see, why don't you see, why don't you see?
Hasn't anybody told you your time is up and over?
You've broken me down I could never feel the same for you
You could throw your body up into the air
You could be upset but I will be there without you
Oh yeah
If you could hear just how my heart is beating
It's all out of time so how do I
Start it up again?
But what you tell me will not stop me from leaving
I need a, a little time to step aside to watch you fade away
I set your spirit free
You made a fool of me
Why don't you see, why don't you see, why don't you see?
Hasn't anybody told you your time is up and over?
You've broken me down I could never feel the same for you
You could throw your body up into the air
You could be upset but I will be there without you
Oh yeah
You are my best friend on who I depend
And every little thing I do for you
The memories we share will always be there
A little bit of me will stay with you
Hasn't anybody told you your time is up and over?
You've broken me down I could never feel the same for you
You could throw your body up into the air

You could be upset but I will be there without you
Oh yeah
Hasn't anybody told you your time is up and over?
You've broken me down I could never feel the same for you
You could throw your body up into the air
You could be upset but I will be there without you
Oh yeah
