

Rise of the Robots (feat. Messinian)

Virtual Riot

A nerd is someone
Whose life is focused on
Computers and technology
But a geek is someone
Whose life is focused on
Computers and technology
And likes it that way Ghost in the shell
Current and circuits of hell
Nanotechnology, lobotomy
Against and rebel
An army of evil servants
Attempting an insurgence
Brainwashing in their machine
I'm a disturbance Can't stop the power of heart
Pumping, devouring
Kilohertz and sonics
Destroy systems empowering
Real to the touch
Humanity in the clutch
Red dots, liquor shots
The rise of you robots Yeah, liquor shots
The rise of these robots
[2x] Can't stop the power of heart
Pumping, devouring
Kilohertz and sonics
Destroy systems empowering
Real to the touch
Humanity in the clutch
Red dots, liquor shots
The rise of you robots Yeah, liquor shots
The rise of these robots
[2x]
