

# Follow Me

Usher

What we gon' do now?  
Oh lord, try some if you like it  
Is slow it down on the flo'?  
You know you like that  
Try some if you like that  
We keep this, who keep that?  
Come on When you look from outside  
All you see is videos and shows  
But there's more to my life  
Than people could ever know Sometimes I gotta smile, when I don't feel like smiling  
Sit back and ride, when I feel like driving  
Nobody understands but you girl  
I can always be myself with you girl, that's why I'm singing Ooh I can't believe it  
You came just in time with what I needed  
And you're not like the other girls I meet everyday  
You stay down like them girls from around the way Uh oh, that's why I had to say  
Come follow me, come follow me, come follow me  
That's why I had to say  
Come follow me, come follow me, come follow me  
Uh oh, that's why I had to say  
Come follow me, come follow me, come follow me now  
Right now Since you been in my life  
When I'm away from you I hurry home, oh yea  
You live in my mind  
So I never feel like I'm alone, yeah Sometimes I gotta go, where I don't feel like going  
And when it gets too fast, and I feel like slowing down  
No one understands but you  
That's why I only see myself with you Ooh I can't believe it  
You came just in time with what I needed  
And you're not like the other girls, I meet everyday  
You stay down like them girls from around the way Ooh I can't believe it  
You came just in time with what I needed  
And you're not like the other girls, I meet everyday  
You stay down like them girls from around the way Come follow me, come follow me, come follow me  
Come follow me, come follow me, come follow me  
Come follow me, come follow me, come follow me now  
Right now You've been there for me and I'll  
I'll be there for you girl Ooh I can't believe it  
You came just in time with what I needed

And you're not like the other girls, I meet everyday  
You stay down like them girls from around the way Ooh I can't believe it  
You came just in time with what I needed  
And you're not like the other girls, I meet everyday  
You stay down like them girls from around the way Ooh I can't believe it  
You came just in time with what I needed  
And you're not like the other girls, I meet everyday  
You stay down like them girls from around the way
