Our Lady

Deep Purple

Thinking out of line just to make the sun shine
Anyway, I can be like you
Fighting with the truth trying to hide a fool in a fantasy
Oh, I'm dreaming, lay me down, lay me down, take me now
Our lady, our lady, our lady of the skies
Hiding in the sun like a loaded gun reality
Aiming high at my dream
But I can get along, she makes me strong, anyway

Oh, I'm dreaming and there is no other way
Our lady, our lady, our lady of the skies
Flying in the sky with a bunch of high fidelity
I can hear your song
Offer me a ring just to show me your sincerity
Oh, I'm dreaming, let me go, let me go
Our lady, our lady, our lady of the skies
