

Shadows of My Name

Emma Ruth Rundle

I've come here wasted and with selfish, saddened things
So that they'd de arrange the shadows of my name
unfazed that I'm unfazed
unveiled that I unveiled what you've gone and done
what you've gone and done
what I've gone and done I lay back in salt
Please forgive my name
I wont speak at all
Just to sing again
what you've gone and done
what you've gone and done
what I've gone and done I lay back in salt
Please forgive my name
I won't speak at all
Just to sing again
I lay back in salt
Please forgive my name
I won't speak at all
Just to sing again
