

Two

Heart

Na na na, na na na [2x]

[Verse 1]

I don't care what they say
About us when we walk away, yeah
They don't live in our space
We've five million lightyears away
Alone, alone in our own world
Home is what you are to me love[Chorus]
So let them say whatever they want to
Cause all that matters here is me and you
Let the world fade right out of view
And that's alright with me
Cause all that needs to be
Is Two

Na na na, na na na [2x][Verse 2]

They speak their mind, speak their peace
As if what they think should mean a thing to me, yeah
See the heart and the mind rarely find
Any thing on which they agree
But when it comes to you I don't mind it
You make me happy[Chorus]
So let them say whatever they want to
Cause all that matters here is me and you
Let the world fade right out of view
And that's alright with me
Cause all that needs to be
Is Two
Oh Yeah Baby
