## Fabulous

Look I talk it 'cause I live it, stand on my own pivot  
I don't need your credit, and you ain't got it to give it  
All I do is Phil up banks, Aunt viv it  
Drink Belaire Champagne and Club Liv it  
I come from the era where you really had to live it  
Couldn't say you Bentley, and really a Honda civic  
Every thing you said painted pictures so vivid  
So when I talk clippers, know that I can Doc Riv it (Swish)  
Big man, pace your self like Roy Hibbert  
You feel froggy than leap, stop all the ribbits  
I pop up at your crib and cats lookin' like Xzibit  
Box braids and mean mugs, I mean thugs  
Type you would merge with on some purge shit  
"Put in Work" "ASAP", on some "Ferg" shit  
My homies said "niggas just tryna wave surf you  
Tryna jump aboard the wave you gave birth through"  
All these niggas late and want me to waive curfew  
Talkin' like they shooters when they wouldn't spray perfume  
They know who the hell I be, I'm L-I-T  
I pass one to French like "c'est la vie"  
Ju L-I-E, stay off the L-I-E  
The 2 Chains made a single no L-I-E (Truu)  
I mean I don't care what her man says  
He better come "Aaron" like Hernadez  
Or you gon' hear that 'Baat' like Birdman says  
Leave him hanging out his helmet, Richard Sherman Dreads  
See, I hit shorty like I need that bouquet  
Her man hit me back like "you need some who cake?"  
I text him right back like "you heard that new Drake?"  
You know that if you reading this it's too late"  
See you ain't offending me  
It ain't like you ain't heard son is fly as Kennedy (JFK)  
Riding in the six, got alot of enemies  
Alot of people tryna drain me of the energy  
I know how it be, You know me from Brevoort  
Used to call me "Sport", Now it's resorts  
Boats and sea ports, Foreign v's bought  
Stamps and p-port, bunch of bitches in them Ms. Parker jean shorts  
Mami got some head that'll stop a deport

Throat game have me stuck, call it deep thought  
But watch where you kick it  
You park in the wrong spot, you know you'll get a ticket  
All of that tough talk, and now the shit is crickets  
Be alot of places where these niggas can't visit  
They think yo mans missin', I(I been around)I been around the world nigga (I been around the world)  
I been around your girl too (I been around)  
Stop callin' my muthafuckin phone talkin' 'bout who this? (I been around)  
Deez nuts! Got 'em! Got 'em!
