Dryjacket

When did your drink spill into mine?
You're too close as we step into the snow
And you that we both know I cut the harness and killed all climbers
In taking back the summit I wanted
Avalanche covering my tracks
And evidence frozen underneath The windshield's covered over
Under are two people escaping each other
Testing the worst addiction
How close is too close?
I cut the harness and killed all climbers
In taking back the summit I wanted
Rhetoric flowing through my fingers
Cadavers thawed out in the spring
