

Bipp

Sophie

I can make you feel
If you let me
However you're feeling
I can make you feel better
Whatever you're thinking
I can make it all clearer
Don't pretend
You know that you feel it
Try so hard
But you can't conceal it
Whatever you feel inside
I can make you feel better
That's what you want boy
And you know where to find me
So
I can make you feel better
If you let me
I can make you feel better
If you want to
I can make you feel better
And you know you will
That's what you want boy
And you know where to find me
So
You gotta be crazy
Thinking you can resist this
Yes you know
Yeah you know you can't help yourself
I bet he can't take it
Yeah I'd like to just see you try
You should try
If you don't you might never know
How it tastes so good
Sweet like whipped cream
Soft and smooth
Like you felt in your dreams
Whatever your heart desires
What you need
If that's what you want boy

Then you know where to find me

So

I can make you feel better

If you let me

I can make you feel better

If you want to

I can make you feel better

And you know you will

That's what you want boy

And you know where to find me

So

I can make you feel

Like you want to

You know you want to

Like you want to

I can make you feel better

If you let me

I can make you feel better

If you want to

I can make you feel better

If you let me

I can make you feel I can make you feel

If you let me

I can make you feel better

Like you want to

I can make you feel better

You know you want to

I can make you feel better

You know you can't help yourself

(And you know you will)

That's what you want boy

And you know where to find me

So
