

Crucify Me

Bring Me the Horizon

Crucify me, nail my hands to a wooden cross
There is nothing above, there is nothing below
Heaven and hell, they just row the boat
And I'll be cast astray I am an ocean, I am the sea
There is a world inside of me
Lost in the abyss, drowned in the deep
No set of lungs could salvage me Only a shipwreck, only a ghost
Merely a graveyard of your former self
We just watch the waves crash over
And I'll be cast astray
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
No one needs to know
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
No one needs to know I am an ocean, I am the sea
There is a world inside of me
Lost in the abyss, drowned in the deep
No set of lungs could salvage me Save yourself, save your breath
We've come this far, we can't go back
So pray for me, just pray There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it If we make it through the night
If we make it out alive
We'll have mercy
And pray for the dead And you say that you can save me
Don't hope to ever find me
And I fear I'm too far gone
Pray for the dead If we make it through the night
If we make it out alive
We'll have mercy
And pray for the dead And you say that you can save me
Don't hope to ever find me
And I fear I'm too far gone
Pray for the dead Pray for the dead
Pray for the dead

Pray for the dead
Yeah Ladies and gentlemen
Can I have your full undivided attention?
There is something
You all really need to know There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it And if we make it through the night
If we make it out alive You say that you can save me
Don't hope to ever find me
And I fear I'm too far gone
Pray for the dead If we make it through the night
If we make it out alive
We'll have mercy
And pray for the dead You say that you can save me
Don't hope to ever find me
And I fear I'm too far gone
Pray for the dead I am an ocean, I am the sea
There is a world inside of me
I am an ocean, I am the sea
There is a world inside of me I am an ocean, I am the sea
There is a world inside of me
I am an ocean, I am the sea
There is a world inside of me I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
