When You're Gone

Lucero

She said she was going home
I said I'll be fine by myself
I thought that she wanted me
But she was thinking something elseNow the sun was coming up
Still I couldn't see exactly how she felt
I thought that she wanted me
But she was thinking something elseIt don't take much to see inside my heart
I was never any good at telling lies
And it don't take too much to see there ain't too much of me
Here behind these eyesI miss you when you're gone
Please don't stay gone too long
