

It's On Tonight

Gloriana

I might regret it in the morning
I might have a hung overcoming, I don't care
I'm letting down my hair
Might just make it a double, we all need a little trouble
Now and then, so let the games begin I'll bring the noise, we're gonna bring the noise
It's Friday, we're finally free Don't stop, move your feet
Bounce to the banjo and the beat
If you wanna rock, come low with me
Singin' whoa oh oh, it's on tonight
We turned it up, pour a little poison in a plastic cup
Here's to the weekend, raise 'em up
Singin' whoa oh oh, it's on tonight Midnight, made it to the party
Looks like it's just gettin' started
Feel the heat, on this bonfire beat Let's roll the dice, 'cause you don't live twice
It's Friday, we're finally free Don't stop, move your feet
Bounce to the banjo and the beat
If you wanna rock, come low with me
Singin' whoa oh oh, it's on tonight
We turned it up, pour a little poison in a plastic cup
Here's to the weekend, raise 'em up
Singin' whoa oh oh, it's on tonight Tomorrow never comes, just a trip around the sun
Gotta get over you, so Don't stop, move your feet
Bounce to the banjo and the beat
If you wanna rock, come low with me
Singin' whoa oh oh, it's on tonight
We turned it up, pour a little poison in a plastic cup
Here's to the weekend, raise 'em up
Singin' whoa oh oh, it's on tonight
