

# Against The Grain

## Akon feat.Ray Lavender

I have tried but it's hard to fight it  
I can't just watch as it falls apart  
    If we could break the mold  
    Make it in from the cold  
Lose your mind, never lose your heart  
    And I don't mind working hard for it  
I'll bend the hands 'til the space appears  
    I'll move the pieces until we all fit  
    From near to far and from far to near  
        And I know  
        That I'm going against the grain  
        And I know this makes no sense  
        The changes I've tried to make  
        They make no difference  
        But I know that I'll try again  
        Although it's so hard  
            Hard  
            Hard  
        Given time it'll finally focus  
    And in a moment that's been and gone  
        And in the afterglow  
        From my head to my soul  
        I can see all I have ignored  
    And I don't mind working hard for it  
I'll bend the hands 'til the space appears  
    I'll move the pieces until we all fit  
    From near to far and from far to near  
  
        And I know  
        That I'm going against the grain  
        And I know this makes no sense  
        The changes I've tried to make  
        They make no difference  
        But I know that I'll try again  
        Although it's so hard  
            Hard  
            Hard  
    If life's so short then we're wasting time  
        Love is the last thing on our minds

It's so simple but so hard to see  
And you are not alone in this  
Sense of loss and loneliness  
Take your shoes off run towards the sea  
And I know  
That I'm going against the grain  
And I know this makes no sense  
The changes I've tried to make  
They make no difference  
But I know that I'll try again  
Although it's so hard  
Hard  
Hard  
I know the sun will keep on shining down  
As long as you're around
