

# If I Were a Tree

## Forest City Lovers

If I were a tree I'd shake you off  
Who needs all those dying leaves?  
Follow my roots to the underground  
Drink wine with all the thieves  
If I were a tree I'd give you wood  
Make you a dendrophiliac  
I'd have a laugh because I could  
Oh my knots and twists are not for that Uproot from the ground and plant me somewhere I belong  
In the winter when my limbs are so bare  
Uproot from the ground and plant me somewhere I belong  
In the winter when my limbs are so bare If I were a tree I would age so well,  
Oh I'd watch the years paint on your face  
Follow my roots to the underground  
Oh, watch you disappear without a trace (Tra-a-ace) Uproot from the ground and plant me somewhere I belong  
In the winter when my limbs are so bare  
Uproot from the ground and plant me somewhere I belong  
In the winter when my limbs are so bare  
In the winter when my limbs are so bare  
In the winter when my limbs are so bare.
