

# Before Gas and Tv

## Mark Knopfler

Before gas and TV  
Before people had cars  
We'd sit 'round the fires  
Pass around our guitars Remembering songs  
When my daddy was home  
He'd play along  
On the spoons and a comb We'd go with the flow  
When the weather was fine  
Sometimes we'd go  
Collecting scrap iron And we'd sit 'round the fires  
Pass a bottle of wine  
In the tales of the road  
Since time out of mind If heaven's like this  
Well, that's okay with me  
Where the living is fine  
And living is free If heaven's like this  
Well, then here's where I'll be  
On the edge of the field  
On the edge of the world  
Before gas and TV
