

# Love Is a Radiation

## The Black Seeds

Love is a radiation  
It's everywhere you go  
And even in times of desperation  
The people still let it show

Love is a celebration  
It's the smile that goes around  
And if it comes before you  
It's too hard to turn it down

Bring forth the goodness in your spirit  
Sharing the kindness of your heart  
Open your mind to its existence  
Release the pressure building up

Love is a meditation  
Yes it calms a worried mind  
But having someone  
That's the real thing  
And is truly hard to find

Love is a radiation

Bring forth the goodness in your spirit  
Sharing the kindness of your heart  
Open your mind to its existence  
Release the pressure building up
