Right Where You Want Me

Hyper Static Union

Searching for my place in this world
Getting lost over and over again
Casting lustrous pearls
Yet you protected my heart
You never let me stray too far
You knew I couldn't pull myself out
By the strength of my arms(Chorus:)
You've got me right where you want me
You took me and put me in my place
You've got me right where you want me
And I never felt betterAll of my words were profane
The only time I called Your Name I took it in vain
Yet You heard my cry, even though I lived a lie
You new that I would be Your servant
'Til the day that I die(Chorus 3x)
