## Slade

Harmony in of our life  
There ain't nothing in this great big world  
You care about  
There ain't nothing in this world  
That I can't do without Oh, it's gotta be me  
Oh, it's gotta be me  
I can change you  
Rearrange you  
Wait and see I believe in everything you say and do  
Is there anything you say that may be true?  
No more second chance, your choice is overdue Oh, it's gotta be me  
Oh, it's gotta be me  
I can change you  
Rearrange you  
Wait and see Harmony in of our life  
There ain't nothing in this great big world  
You care about  
There ain't nothing in this world  
That I can't do without Oh, it's gotta be me  
Oh, it's gotta be me  
I can change you  
Rearrange you  
Wait and see The attention you receive goes to your head  
You'd be better off believing me instead  
If you leave me, is it something that I said? Oh, it's gotta be me  
Oh, it better be me  
I can change you  
Rearrange you  
Wait and see Harmony in of our life  
There ain't nothing in this great big world  
You care about  
There ain't nothing in this world  
That I can't do without Oh, it's gotta be me  
Oh, it's gotta be me  
I can change you  
Rearrange you  
Wait and see Wait and see  
I can change you  
Rearrange you
