# Old Habits

## Hank Williams, Jr.

I kicked the habit, of smoking back some time ago
And I tried the hard stuff but I had to let all that go
But the toughest thing I ever gave up was today
'Cause old habits like you are hard to breakI use Life Savers to help me get off cigarettes
But you know for your love, I ain't found no Life Savers yet
And I've gone cold turkey, 'cause there's not even one kiss a day
And old habits like you are hard to breakOld habits like you are hard to break
Love with someone new is so hard to make
I had grown so use to you and all of your ways
And old habits like you are hard to break
