Hell

Boy Epic

There will come a day when
You see my face in your dreams
And all that's left of me
Is the cold spot on your sheets
Excuse me miss
But can I say that I miss your legs
And the way they wrapped around me
Always a perfect fit
Like puzzle pieces beneath your blanketThat's right.
I put myself through hell
To keep you to myself
She said
Don't put yourself through hell
You know very well
You walk around this town
With your heart foaming out your mouthShe stands there shameless
With the cherry glow of a cigarette
And believe me kid
If you taste her lips
They'll pull you in like medicine
Now excuse me while I swerve
She's hypnotherapy with the curves
She's got me right where she wants me
Now isn't that just absurd
How I'm right back in the thirst
She's got me on all fours crawling
And I said.I put myself through hell
To keep you to myself
She said
Don't put yourself through hell
You know very well
You walk around this town
With your heart foaming out your mouthI put myself through hell to keep you to myself
I put myself through hell to keep you to myself
I put myself through hell
To keep you to myself
She said
Don't put yourself through hell
You know very well

You walk around this town
With your heart foaming out your mouth
