Cradle (Better Nature)

Silversun Pickups

Someone long gone
Said to stay calm
Keep your head on
If you need loveHide your cradle
And a headstone
In the watermark
When the sea comesHelp me swallow up
All of your better nature
Please can you summon up
All of your better natureWhen your mind's off
In a tight knot
Can you feel caught
If you need loveBetter nature
Better natureHold on
I think you're wrong
