

Love Is The Healer (J.P.'s Sound Factory Mix)

Donna Summer

So many times in my life
I've been alone, left alone
Heart broken and
Turned around
I find myself
Crying in the night time
Dying out loud
In the night I sleeplessly
Wake up
From a dream that's
Tormenting me
I, I, I, I, I gotta get help
Oh, yeah Love is the healer
Love is the healer
Come heal me
Love is the healer
Love is the healer
Set me free Late at night I was afraid
And I tried to turn away
I was afraid to face
What in-evil-it-able is Say you know the way
To find true freedom
Can you save yourself
From the pain you're feeling
Something in my head
That you're dreaming
That the angels said Love is the healer
Love is the healer
Come heal me
Love is the healer
Love is the healer
Set me free
Love is the healer
Love is the healer
Come heal me
Love is the healer
Love is the healer
Set me free I am on a mission, a mission of love
I am on a mission, a mission of love

I am on a mission, a mission of love
I am on a mission, a mission of love
I am on a mission, a mission of love Love...is the healer Love is the healer
Come as a healer
Set me free
Love is the healer
Come as a healer
Set me free
Love is the healer
Come as a healer
Set me free
Love is the healer
Come as a healer
Set me free
Do you know the way to love
Do you know the place of love
Do you know what love
Can do
Do you know what
It'll do for you
