

Whisper In Her Ear

The Milk Carton Kids

I could never take it
I was never one to be tough
Someone says we'll make it
We'll I'd never thought that I could
Follow up the paces
Every time your misery clears
A spectacle of mercy
Running the hope that appears Listen up I mean it
There's something here between us to hear
Think I wouldn't notice
Something else is fighting my fear
If I had one more try, I could fly with her
Hide away the years
If I had one more life, I could die with her
A whisper in her ear Everything is rising
Like I never hoped that it would
Somewhere down inside me
I could never find what was good
Memories are tough here
Heartache is rougher than time
Someone left a promise
I'm already aching to try Who would ever want it?
Who would ever even dare?
Hope remains hopeless
The joke is that it's always there
