

Only When I Walk Away

Justin Timberlake

Advisory - the following lyrics contain explicit language:

Girl this little game you play
Don't stop 'till you run too far
So what's a man like me to say?
With a bullet laying in my heart
Damn girl, we go from so hot to so cold
What am I gonna do about this damn love
Is that shit in sync or insane, love
I guess that's the way we play itShe loves me now
She loves me not
She loves me now
But only when I walk away
She loves me now
She loves me not
She loves me now
But only when I walk awayWhat's that, baby, what you say?
You the one to light up this torch
'Cause I'm burning down all the way
Burn it down 'til there ain't no more
Damn love, how did the sound get so amped up
Turn off and silence this damn love
Is that shit insane or in sync, girl
I guess that's the way we play itShe loves me now
She loves me not
She loves me now
But only when I walk away
She loves me now
She loves me not
She loves me now
But only when I walk awayYou should see the look on your face
Baby when I finish what you start
but I can't hear a word you say
With a bullet laying in your heart

Damn love, how did this shit get out of my hands love
I laid you to rest you said damn love
This shit's insane, it's insane love
Ain't that the way we play itShe loves me now
She loves me not
She loves me now
But only when I walk away
She loves me now
She loves me not
She loves me now
But only when I walk awayBut only when I walk away
But only when I walk away
But only when I walk away
Only when I walk awayBut only when I walk away
But only when I walk away
But only when I walk away
But only when I walk awayShe loves me now
She loves me not
She loves me now
But only when I walk away
She loves me now
She loves me not
She loves me now
But only when I walk awayOnly when I walk away
Only when I walk away
What am I gonna do with all this damn love
What am I gonna do with all this
Only when I walk away
Only when I walk awayShe only love me when I walk away
Call me on the phone tell me baby please stay
She only love me when I walk away
Call the girl back and crying baby please stayShe only love me when I walk away
Call me on the phone tell me baby please stay
She only love me when I walk away
Call the girl back and crying baby please stayShe only love me when I walk away
Call me on the phone tell me baby please stay
She only love me when I walk away
Call the girl back and crying baby please stayShe only love me when I walk away
Call me on the phone tell me baby please stay
She only love me when I walk away
I said fuck you bitch me no care care what you say, hey
