Knock Me Down

Red Hot Chili Peppers

Never too soon to be through

Being cool too much too soon

Too much for me, too much for you

You're gonna lose me in timeDon't be afraid to show your friends

That you hurt inside, inside

Pain's part of life don't hide behind your false pride

It's a lie, your lieIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeI'm tired of being untouchable

I'm not above the love

I'm part of you and you're part of me

Why did you go away? Finding what you're looking for

Can end up being, being such a bore

I pray for you 'most every day

My love's with you, now fly awayIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIf you see me getting mighty

If you see me getting high

Knock me down

I'm not bigger than lifeIt's so lonely
When you don't even know yourself

It's so lonely, it's so lonely
When you don't even know yourself

It's so lonely, it's so lonely
When you don't even know yourself

It's so lonely, it's so lonely
When you don't even know yourself

It's so lonely, it's so lonely
When you don't even know yourself
