

# Great Escape

## Guster

Please come tempt me, you've got something good in mind  
Dropped everything glad to be persuade this time  
Into the car, baby, bleed the gas, fast as fast, never turning back  
Oh yeah, not scared of that, past has passed and we cannot take it back They want to know if we could get away  
Yeah, we backed it up and made our great escape  
When the dust will settle, they'll discover  
Furthest exodus getting somewhere  
While the messengers get the message in  
Try to capture us, we've done nothing wrong Please come tempt me, steal me from this pristine life  
Oh so gently, everyone feels pain this time  
Into the car, baby, bleed the gas, fast as fast, never turning back  
Oh yeah, not scared of that, past has passed and we cannot take it back They want to know if we could get away  
Yeah we backed it up and made our great escape  
When the dust will settle and they'll discover  
Furthest exodus getting somewhere  
While the messengers get the message in  
Try to capture us, we've done nothing wrong And she wants me and she needs me  
She can have me all of the time  
And she wants me and she needs me  
Circle, circle, dot, dot, dot They want to know if we could get away  
Yeah, we backed it up and made our great escape  
When the dust will settle, they'll discover  
Furthest exodus getting somewhere  
While the messengers get the message in  
Try to capture us, we've done nothing wrong
