

Run (I'm a Natural Disaster)

Gnarls Barkley

Yeah it's still the same
Can't you feel the pain?
When the needle hits the vein
Ain't nuthin' like the real thing
I've seen it once before, and oh it's something else, Good God

Cool breeze come on in
Sunshine come on down
These are the teardrops of a clown
The circus is coming to town
All that I'm saying is sometimes I'm more scared of myself

You better (Move!)
I said (Move!)

Chorus:

Run away!
Run away!
Run children!
Run for your life!
Run away!
Run away!
Run children!
Here it comes, said run! Alright?

Yeah I'm on the run
See what I'm coming from
When you see me come and run
Before you see what I'm running from
No time for question asking, time is passing by. Alright!

You can't win child,
We've all tried too
You've been lied to
It's already inside you
Either you run right now, or you best get ready to die

You better (Move!)

I said (Move!)

Run away!
Run away!
Run children!
Run for your life!

Hurry little children
Run this way
I have got a beast at bay

(Promise me when the chance comes
You'll run as fast as you can
Don't you dare look backwards
Run as fast as you can)

Run away!
Run away!
Run children!
Run for your life!

Run away!
Run away!
Run children!
Here it comes, said run!
