

# We Can Always Come Back To This

**Hannah Miller**

Standing at the station  
We don't know what to say  
Looking out the window  
as your rolling away  
If I'm gonna be alone  
Let it be with you Mother don't you cry  
We are gonna be alright  
Open up your suitcase  
when you get there  
Tonight your not alone  
I'm always here with you  
Not matter where we go from here  
Not matter how the cards will fall  
I'll pick you up and you'll hold me too  
So don't give up on me  
I'll never give up on you  
Everything gonna be alright  
I know you believe it too  
If I'm gonna be alone  
Let it be with you If I'm gonna be alone  
Let it be with you  
Look up not down  
It all comes around  
Even when your gone  
We can always come back to this  
We can always come back to this  
We can always come back to this  
We can always come back to this back to this  
We can always come back to this back to this  
We can always come back to this  
We can always come back to this  
We can always come back to this  
We can always come back to this If I'm gonna be alone  
Let it be  
With you
