Moving Visions

Expensive Looks

The faces trailing rapidly
Your shadow awkwardly
approaches fossils of the
moving visions we don't make decisions
a galaxy round us wherever we go
We're not usually so blind
aware of the time aside from your mind
they see deep inside
a segment between us wherever, forever we go
(Wherever, wherever we go)
(Forever, forever we go)
(Ever, forever we go)
If you were to track the point
of the folding over a proper loner
on some island of treasured failure
the different sailor, a mono laser
Your shadow trailing rapidly
the faces awkwardly
approach the fossils of the
moving visions you don't make decisions
Insanity round us wherever wherever we go
(Wherever, wherever we go)
(Forever, forever we go)
(Ever, forever we go)
