Do It Right

[Anthony Green](#)

Better get your life together, better do it right
You gotta make sure everybody you love in your whole life knows it
Make sure they know it, if you love them make sure that they know it.Get your life together, better do it right
You better make sure everybody in your life that you love knows it
Better get your life together, better do it right
Make sure that everyone that you love in your life knows it
Better get your life together, better do it right
You gotta make sure everybody you love in your life's important
Better get your life together, better do it right
Better make sure you make time for everything you love.
Better get your life together, better do it right
Better make sure everybody you love in your life knows itMake sure they know it, make sure they know it
Make sure you tell them, make sure they know
Make sure they know it
Make sure you tell them, take time to tell themYou better get your mind together, you better do it right
Better make sure everybody in your life you love
Better get your life together, better do it right
Better make sure everyone you love in your life knows it
Better get your life together, better do it right
Better make sure everybody you love in your life knows it
Better get your life together, better do it right
Better make sure everyone you love in your life knows it.
