

# Stay Gold

## The Matinees

A time to laugh, a time to cry  
And beat the darkness into light  
We'll write our names across the town  
Up is up and so is down

Forgive your lovers, but don't forget their names  
And let their spirit remain  
Stay gold, gold  
You shine the light for us to follow, gold  
You shine the light for us to follow, gold  
You shine the light for us to follow

The stings our fingers just won't go  
Chrome letters, outlines, arrows fall  
The words took off, we watched them fall  
Desire of our mind is now written on the wall

Forgive your lovers, but don't forget their names  
And let their spirit remain  
Stay gold, gold  
You shine the light for us to follow, gold  
You shine the light for us to follow, gold  
You shine the light for us to follow

How vast the darkness  
We disappear into the light  
Follow the torch we made  
In the end, we're all made of gold  
And now I know, I will not be saved  
Unless I follow  
And now I know, I will not be saved  
Unless I follow

Stay gold, gold  
You shine the light for us to follow, gold  
You shine the light for us to follow, gold  
You shine the light for us to follow

If you lead, I will follow
