

# Sex, Love & Money

## Mos Def

Sex love and money, fun  
Brooklyn, sex love and money  
Get up, come, danger  
You are now rockin' with the best  
Black darts exclusive, fire in the dark  
Fire in the dark, ghetto let this sparkHuh, freaky black beauty with the party pal  
Where you work it out got me fiendin', bam  
I hit the G ready for the street  
Heavy, ghetto sweet breezin' through the evenin', bamI'm on the lounge path for the warm blast  
Got the John shaft cocked back and loaded, bam  
I beat it, word John, body awesome  
Is the way that you come that got me goin', bamI'm on the back streets rollin'  
I'm playin' back all the magic moments, don't front  
You know I got'cha, know I got'cha  
You sneaky freaky, but I know about'cha, know about'cha  
You straight dope, I can't do without'cha, go without'cha  
Lay back and relax you mindI'm bout to double the doses in half the time  
Ha, master physical, master mind  
You play it quiet but in private that ass is mine, huhWe body rockin' the last of time  
And then we, we body rockin the last of time
