This Is More

Stick to Your Guns

This is more than a pulse beneath my wrist
Or a beat beneath my ribs
This is something that cant be given away.
Because what's life for some is not right for some
But either way we can overcome
And not be killed by our own mistakes..
We can't let this be our death..
Because our differences will be our expenses too relieve us
And achieve something for us to believe..
We have been put up on the shelf it's such a sad day when we need to save each other from ourselves..
Rest assured
That with a heart that's pure
We'll be victorious
And not let our hate get the best of us.
Rest assured
That with a heart that's pure
We'll be victorious
And not let our hate get the best of us.
MOVE
Rest assured
That with a heart that's pure
We'll be victorious
And not let our hate get the best of us
Rest assured
Will not get the best of us.
