Funky Crime

Red Hot Chili Peppers

Why do you do? what you do?

I do what I want to do

Who said you could do what you do? I told you who told me to I do what I want to do, I do what I want to doFunky crime, funky crime

Don't you know funk's colors blind

Well, I've committed a funky crime

Against a state of mindHey you, mister interview I don't have to answer you

This is what I grew into

Don't judge me and my soul stew

Funk is my attitude, funk is my attitudeFunky crime, funky crime

Don't you know funk's colors blind

Well, I've committed a funky crime

Against a state of mindBarriers of race

In the media take place

Telling you there is no room

For what you do but don't budgeThere's no groove to your gloom

Who made you the judge

Always room for funky tunes

And yes I funk it up, I funk it upFunky boy meets a funky girl

Make it funky, baby

'Cause the funk is crazyWhy do you do? What you do?

I do what I want to do

Who said you could do what you do? I told you who told me to

I do what I want to do, I do what I want to doFunky crime, funky crime

Don't you know funk's colors blind

Well, I've committed a funky crime

Against a state of mindFunky crime, a funky crime

A funky funky crime

The crime is funky
