Ledisi

Sometimes we don't listen to what we already know
Take time to hear me, cause you've got to be told
So busy looking for love, like you don't know your worth
Get it together
Even when it hurts

You gotta be good to yourself (be good to yourself)
You can't wait on nobody else (no one else)
Baby, be good to yourself (be good to yourself)
Oh you can't love nobody else

Somedays you feel like runnin', from everyone you know
The things that you thought might be right now
It ain't necessarily so, so much on my mind
Need a break from it all to get myself together
So I don't fall

Gotta be good to myself (be good to yourself)
You can't wait on nobody else (no one else)
Baby oh yeah be good to yourself (be good to yourself)
Oh you can't love nobody else

Oh woo woo woooo
When you're traveling
Through the highs and the lows
Make sure you listen to your spirit
You gotta take care of your soul
Hold on, never give up
You can get through whatever
Always make time
For yourself woooo

Be good to yourself (be good to yourself)
You can't wait on nobody else (no one else)
Be good to yourself (be good to yourself)
Oh you can't love nobody else

Be good to yourself (be good to yourself)
You can't wait on nobody else (no one else)
Be good to yourself (be good to yourself)

Oh you can't love nobody else
