

# Perfect Kiss

## New Order

I stood there beside myself thinking hard about the weather  
Then came by a friend of mine suggested we go out together  
Then I knew it from the start this friend of mine would fall apart  
Pretending not to see his gun, I said let's go out and have some fun  
I know you know, we believe in a land of love  
I know you know, we believe in a land of love

I have always thought about staying here and going out  
Tonight I should have stayed at home playing with my pleasure zone  
He has always been so strange I'd often thought he was deranged  
Pretending not to see his gun I said let's go out and have some fun  
I know you know, we believe in a land of love  
I know you know, we believe in a land of love
