

# Mic Club Outro

## Canibus

mic club x4  
this is a favorite short sayin of mine  
two famous lines  
time flies, especially when you listeining to rhymes  
the words will come time, and time is ?  
around the world in eighty seconds, through a sentence,  
experience is the mother of all invention  
who knows the unknown, where you will end up question  
yourself, who when or what  
I tell this much, it is up to every one of you learn from  
the past or the future will punish you  
  
power flows to those who remember  
memory comes from words, words come from letters  
this is mic club's primary premise  
we tell history we don't let history tell us  
mic club x4  
I think I write because it is the only thing I know how to  
do very, and its my way of contributing to the betterment  
of the planet and to my community
