Hold On

Elemeno P

Got your letter yesterday
The things you didn't say have blown me away
Complications with the phone
No consolation when I'm sitting on the sofa all alone

[Chorus]
So long it was nice to meet you
I'll probably never see you again

It was nice to hold you
It was a roller coaster till the end
Like do do do do do
Do do do do do do
Who's getting over you
Do do do do do

Supernova girl with not so many problems
If it wasn't so crapped up
Maybe I could help you solve them
I don't mean to impose
And I don't want to be rude
But lets be honest dear
You're crapped up in the head

[Chorus: x2]
