

# Settle Me Down

## Zac Brown Band

A man's blood runs hot  
High as the tempo will go  
Though we can deny our nature, baby  
It makes us less in control  
There's a beautiful lady who breaks in the sand  
With secrets that she only knows  
Oh she gives and she takes with each wave that she makes  
And it's to her that I must go  
Cause she settle me down  
Settle me down  
Oh won't you settle me down  
Cool this fever in my blood  
Oh won't you settle me down  
C'mon  
Oh it's not my style  
To be afraid  
Of what evil men goin' do  
And I won't live in fear  
I know why I'm here  
Yeah, I'm sheltered and watched after too  
'Cause these people put on the fine business suits  
And they step on your face 'til they're going  
Oh, the money a curse, & when it's time for rehearsal  
Only bankers and lawyers are showin'  
Come and settle me down  
  
Settle me down  
Oh won't you settle me down  
And cool this fever in my blood  
Oh won't you settle me down  
Bye, bye, bye, bye  
Hey boys,  
Listen right here.  
This ain't ever gonna get on country radio  
I'm tellin' ya'  
You gotta change your style  
C'mon  
Settle me down  
Settle me down

Oh won't you settle me down  
And cool this fever in my blood  
Oh won't you settle me down  
Settle me down  
Settle me down  
Oh won't you settle me down  
And cool this fever in my blood  
Settle me down  
Settle me down  
Oh won't you settle me down  
And cool this fever in my blood  
Oh won't you settle me down
