

# Long Way Down

## Haste The Day

Oh, here you are, there's nothing left to say  
You're not supposed to be that way  
Did they push you out?  
Did they throw you away?  
Touch me now and I don't care  
When you take me I'm not there  
Almost human but I'll never be the same  
Long way down and I don't think I'll make it on my own  
Long way down and I don't want to live in here alone  
Long way down and I don't think I'll make it on my own  
I never put you down, I never pushed you away  
You're not supposed to be that way  
Take anything you want, there's nothing I could say  
Is there anything to feel?

Is it pain that makes you real?  
Cut me up before it kills me  
Long way down and I don't think I'll make it on my own  
Long way down and I don't want to live in here alone  
Long way down and I don't think I'll make it on my own  
I never put you down, I never pushed you away  
Take another piece of me  
Give my mind a new disease  
And the black and white world never fades to gray  
Long way down and I don't think I'll make it on my own  
Long way down and I don't want to live in here alone  
Long way down and I don't think I'll make it on my own  
On my own, on my own
