

# Not so Black and White

**Rachel Potter**

Everything they tell you, baby don't you listen  
Just be who you are  
They're just gonna wind you up in a prison  
With handcuffs on your heartHey, hey, hey, life is just one long riddle  
Hey, hey, hey, the answer's in the middleNot so black and white  
Not so day and night  
The master design is outside the lines of wrong and right  
Not so tried and true  
Things you thought you knew  
Soon you'll discover love is a color  
That hits you right out of the blue  
And it's not so black and whiteKeep your eyes open, get your heart broken  
Get carried away  
Have no regrets, get your feet wet, say everything you wanna sayHey, hey, hey, life is just a jigsaw puzzle  
Hey, hey, hey, no two pieces doubleNot so black and white  
Not so day and night  
The master design is outside the lines of wrong and right  
Not so tried and true  
Things you thought you knew  
Soon you'll discover love is a color  
That hits you right out of the blue  
And it's not so black and whiteHey, hey, hey, when you're old and grey  
I hope you say, 'I did it my way'And it's not so black and white  
It's not so day and night  
The master design is outside the lines of wrong and right  
It's not so tried and true  
Things you thought you knew  
Soon you'll discover love is a color  
That hits you right out of the blue  
And it's not so black and white  
No it's not so black and white  
It's not so black and whiteIt's not so black and white
