Till You Came into My Life

Colm Wilkinson

Till You Came Into My Life
From Jekyll & Hyde

All my life Iâ€™ve been building walls around me,
In my world safe where no oneâ€™s ever found me.
Never knowing what could be, what was there inside of me; I never let those feelings in.
Then upon a summerâ€™s night, you gently changed my life.
I would never be the same.
Till you came into my life, till I heard you call my name,
I was living in a world of grey, each day just like the one before.
You have given me my eyes, you have taught me how to see.
And now I see a brand new world I never dreamed could be,
Till you came into my life.
In your eyes I could lose myself for ever.
In your eyes thereâ€™s excitement there is wonder.
Like a ship adrift at sea, I had wandered endlessly, searching for a shelter.
Like a sweet imagined dream, you were heaven sent to me; you gave my heart a home.
Till you came into my life, till I heard you call my name,
I was living in a world of grey, each day just like the one before.
Till you came into my life.
Without the stars the night is empty, I was till there was you.
Now youâ€™re the light that shines within me, guiding me through.
Till you came into my life, Iâ€™d forgotten how to feel.
How to listen to a song or cry, Iâ€™d lost the child in me.
Till you came into my life, I had never wanted more.
Then you said you needed me, and suddenly my heart could soar.
Forever stay with me.
